

# THE MARBLE HILL PRESS.

Terms-\$1.00 a Year

TWENTY-NINTH YEAR.

Circulation, 1,000

Vol. 20.

We are requested to announce Hox, Peter H. Huck of Ste. Genevieve a candidate for the office of Judge of this (the Twenty-seventh) Judicial District, subject to the decision of the democratic voters at the primary election.

## Attention, Democrats!

There will be a meeting of the Democratic Committee of the Thirteenth Congressional district and other leading Democrats who wish to be present at Bismarck, April 16, at 10 a.m.

### Business of importance

N. A. ZUMERMAN, Ch'n.

### Southeast News.

Butler county has voted in favor of a new jail and will proceed to have an up-to-date "cooler" erected with all the modern appliances for entertaining and taking care of bad men.

We are in receipt of the program of the fourth district convention of the Missouri Christian Missionary society, to be held at Flat River April 12-14. Delegates are requested to send their names at once to C. E. Huitt, Flat River.

### Benton Democrat.

Automobiles are getting more numerous every day, and hardly a week passes now but what some go through here. But these old sand hills are almost too much for them as they often get out and push the car over, showing we need better roads.

### Dexter Messenger.

Edw. P. Crisoe, who has been engaged in the Prohibition lecture field for several years, bought the Sikeston Enterprise plant and moved it here last week. In a few days he will begin the publication of a newspaper to be known as The Statesman. Mr. Crisoe has published a number of papers previous to this venture.

### Fredericktown Tribune.

Moses Davidson, Castwell, Linn and Hybertson are in New York in conference with parties relative to reorganizing the North American Lead company. The prospect is good for speedy reorganization and for the mines being started soon. If this is effected the old debts will then be taken care of and the company put on a firm financial basis.

### Benton Democrat.

This is destined to be one of the most prosperous seasons Benton has seen in many years. It is probable the Methodist people will put up a new church during the summer, several large and commodious residences will undoubtedly be built, together with a long string of cement walks and other improvements, aside from some good things that are being agitated, will make this the best season our town has ever enjoyed.

According to a special dispatch to the St. Louis Republic, dated Charleston, Mo., March 25, John Watson, a farm hand, is in jail there charged with attempting to attack Opal Clark and Mary Groves, 10 and 9 years old, respectively, near Bertrand, six miles west of Charleston. Watson was captured and hurried away in time to avert a lynching. He has served a term in the state penitentiary for a similar offense.

Lee L. Berry and Miss Edith Fleming drove from Dexter to Bloomfield last New Year's Day, procured a marriage license from her uncle, J. W. Malone, who is recorder of deeds, and were married at his home. Miss Fleming then returned to her employment as teacher in the Dexter public school and he to his farm a short distance from town. The plan was to give their friends a surprise, says a Republic special, at the close of school, but the secret was discovered and announcement made.

### Charleston Courier.

On account of some bad boys who

effected an entrance into the high school building at Poplar Bluff and mixed up and damaged the books and papers of the pupils one night last week, school had to be dismissed for a day to get the kinks out. The board held an inquiry, and afterward offered \$100 reward for information to convict the perpetrator or perpetrators, who may be prosecuted for burglary, if apprehended. A false fire alarm emptied the school a few days previous, and other depredations are reported.

### Flat River News.

Between 1 and 2 o'clock on the afternoon of the 23d inst., fire destroyed eight houses at Red Onion shaft. The blaze is said to have started from some boys burning straw. With but one short line of hose it was next to impossible to prevent the spread of the flames, and in a few minutes the entire row of houses was burning. One house, near the shaft, was saved. It was the property of the Doe Run Lead company and was occupied by employees at the Red Onion. A part of the furnishings were saved from the houses.

### Greenville Sun.

The Louisville flooring mill is under course of erection. W. T. Fox is in charge of the work. An effort is being made, whether in fun or earnest, no one seems to know, to get up some excitement about moving the county seat to Williamsburg. The location is about fifteen or twenty miles due south of the center of the county. A new mercantile company, composed principally of Wayne county capitalists, has been incorporated, with \$75,000 capital, and will conduct a general mercantile, lumber and live stock business at Fredericktown.

A special to the St. Louis Republic from Sikeston, dated March 25, says: Constable C. A. Russell of Sikeston yesterday captured Irvin Glass of Hopkinsville, Ky., who is wanted by the Kentucky authorities on a charge of mail robbing, and who, with Dr. D. A. Amos and others, raided Hopkinsville on the night of December 7, 1907. In their raid they shot two men, beat up another and burned tobacco warehouses and contents, valued at over \$200,000. Irvin says he is the man wanted and will return without reprisal. It is understood Russell will receive a liberal reward.

Van Buren Local.

The fishing in Current river now is good and the fishers are many. Salmon is the species now being caught, and it isn't an uncommon thing to see one of our town anglers come in early in the morning with several of these beautiful fellows weighing from three to five pounds each. The salmon are now feeding at night on the shoals, and the hooks set for their capture are baited with minnows and weighted down with stones in the swiftest parts of the river. The faber-pusher caught three fine ones the other Monday but he had to alter the baiting program a little and use a half-dollar.

A Cape Girardeau special to the St. Louis Republic, dated March 26, says: The Field and Stream's trim little yacht and party arrived here at 10 o'clock yesterday morning and, after a short stop, the party proceeded down the river to Cairo. Those composing the party were Stanley A. Beadle, Associate Editor E. Grimes and a crew. The party left Muskegon, Mich., last November on a 10,000 mile cruise and was delayed about two months at St. Louis by the ice jam. From here they go to New Orleans, Gulf of Mexico to Key West, then along the Atlantic Ocean to New York. The return trip will be made up the Hudson river, thru the Erie canal and the great lakes.

The liquor traffic has done all of this. Yea, more, it has helped to fill our prisons, added to our criminal cost, and has been a curse to the country.

If our office-seekers have any patriotism above their pockets why will they go around condemning democracy or republicanism and remain as dumb as an oyster on the whisky question?

VOTER.

Led by Presbyterian President

FRIDAY, APRIL 15

9:30 a.m. Devotional half hour

..... Mrs. Jewell, Fredericktown

10:00 a.m. Welcome
